Brief about area:

Hirebendigere sub watershed (4D4A6Q) and Shiggaon sub watershed (4D4A6R) situated in Shiggaon taluk of Haveri district comprises of Nine micro watersheds with the total treatable area of 4633.68 ha. It is 13 KM away from the taluk head quarters and 56 KM away from the district head quarters Haveri. The area is spread over eighteen villages namely Shiggaon, Kabanura, Bannur, Chikkamanakatti, Bannikoppa, Kyalakonda, Hiremallura, Chikkamallura, Kankanavada, Belavalakoppa, Ganjigatti, Belagali, Mugali, Hanumarahalli, Kengapura, Surfagatti, vanahalli and Panigatti, Five grama panchayats namely Bannura, Hiremallura, Kabanura, Hanumarahalli and kyalakonda. The Hirebendigere and Shiggaon sub watershed area is the most backward area in the taluk with the average annual rainfall of 730 mm. The sub watershed lies between 15°04.482' to 75°16.821' towards North and East. More than 70 percent of the area is under rainfed. The major field crops grown are maize, cotton, Ground Nut, soyabean, Jowar, Safflower and pulses. Major part of the watershed area is cropped during kharif season and least area is covered during rabi. The cropping intensity is less than 1. The major horticulture crops grown are mango and sapota. This area is characterised by the red soil and medium black soil with the average slope of 2-5 percent and the soils are of less productive. The soils of the area are deficit in nitrogen, phosphorous and rich in potassium. Many land less people, small and marginal farmers, low soil productivity and down trodden people are important factors where the project has to look into. By the implementation of New Generation Watershed and Springshed Development Project (NGWSDP) there is lot of scope to improve the productivity of the crops and also to improve the under ground water table so as to increase the protective irrigation area. There is lot of scope to improve the biomass production through the horticulture and agro forestry programme and also

to improve the livelihood of farmers by the supplementary income from these two sectors. By involving the SHGs and UG groups implementation of the income generation activities and production systems will be very effective.

- **Institutional arrangements:**

A sector can only prepare and manage its programmed properly if all institutions are appropriately involved in the three main phase namely Planning, Implementation and Consolidation. Although this is normal for organisations like government departments it is also true for all other institutions that are indirectly implicated and will affect in one way or the other.

Under New Generation Watershed and Springshed Development Project the following institutions are involved.

A) State level :A dedicated State Level Nodal Agency (SLNA) (Department / Mission /Society/ Authority) will be constituted by the State

Government. This is headed by the Development Commissioner and it is a multi disciplinary body.

B) District level:District Level Watershed Development Unit (DWDU) In districts, where the area under the NGWSDP is about 25,000 hectare, a separate dedicated unit, called the District Level Watershed Development Unit (DWDU) will be established at the district level, which will oversee the implementation of watershed programme in each district.

C) Gram panchayat level : Panchayats have an important role in planning the watershed development projects at the intermediate level.

They can also provide valuable support to PIAs and Gram Panchayats/ Watershed Committees in technical guidance with the help of their subject matter specialists.

D) Project level :Project Implementing Agency (PIA) PIAs, who would be responsible for implementation of watershed projects in different districts Each PIA must put in position a dedicated watershed development team (WDT) with the approval of DWDU.

E) Institutional Arrangements at the Village Level and People's Participation :

Self Help Groups:The Watershed Committee shall constitute SHGs in the watershed area with the help of WDT from amongst poor, small and marginal farmer households, landless/asset less poor agricultural labourers, women, shepherds and SC/ST persons.

User Groups: Watershed committee shall also constitute User Groups in the watershed area with the help of WDT. These shall be homogenous groups of persons most affected by each work/ activity and shall include those having land holdings within the watershed areas. Each User Group shall consist of those who are likely to derive direct benefits from a particular watershed work or activity.

Watershed Committee (WC):The Gram Sabha will constitute the Watershed Committee (WC) to implement the Watershed project with the technical support of the WDT in the village.

- **Salient Project activities:** Hirebendigereand Shiggaonsub watershed has unique characteristics and problems and hence its treatment and management would therefore require careful consideration of various site specific factors like topography, nature and depth of soil cover, types of rocks, water absorbing capacity of land, rainfall. For this purpose thematic maps obtained from the Karnataka remote sensing agency are used which have given the details of the slope of the watershed, land use and land cover details, water bodies and the cadastral maps with the details of survey numbers, drainage line, watershed boundaries etc. All the works for treatment were planned in a location specific manner through the net planning process. Net planning process involves the traverse survey of each and every survey numbers obtained from the cadastral map. The survey team includes the WDT members, NGO staff, Executive committee members, farmers from the user groups and the members of SHG group. Then PRA exercise was conducted

regarding the works planned. Based on the topographical details along with the local demands and socio-economic conditions of the Hirebendigereand Shiggaonsub watershed entire treatment plan was finalised.

The following are the unique features of the Hirebendigereand Shiggaonsub watershed project

- Ridge to valley principle with multi tier sequenced approach
 - Involvement of community based organizations at implementation level
 - Cluster approach for the watershed projects
 - Scientific planning
 - Capacity building
 - Co-ordination with other schemes like MGNREGA.
 - Monitoring, evaluation and learning by the independent out sourced agency
 - Support for livelihood activities and production system
 - Involvement of gram panchayat/ corresponding institutions as a governance body in addressing the problems
 - Encouragement for the fodder production
 - Collection of user charges for repair, maintenance and protection of common property resources
-
- **Physical target and financial outlays:**

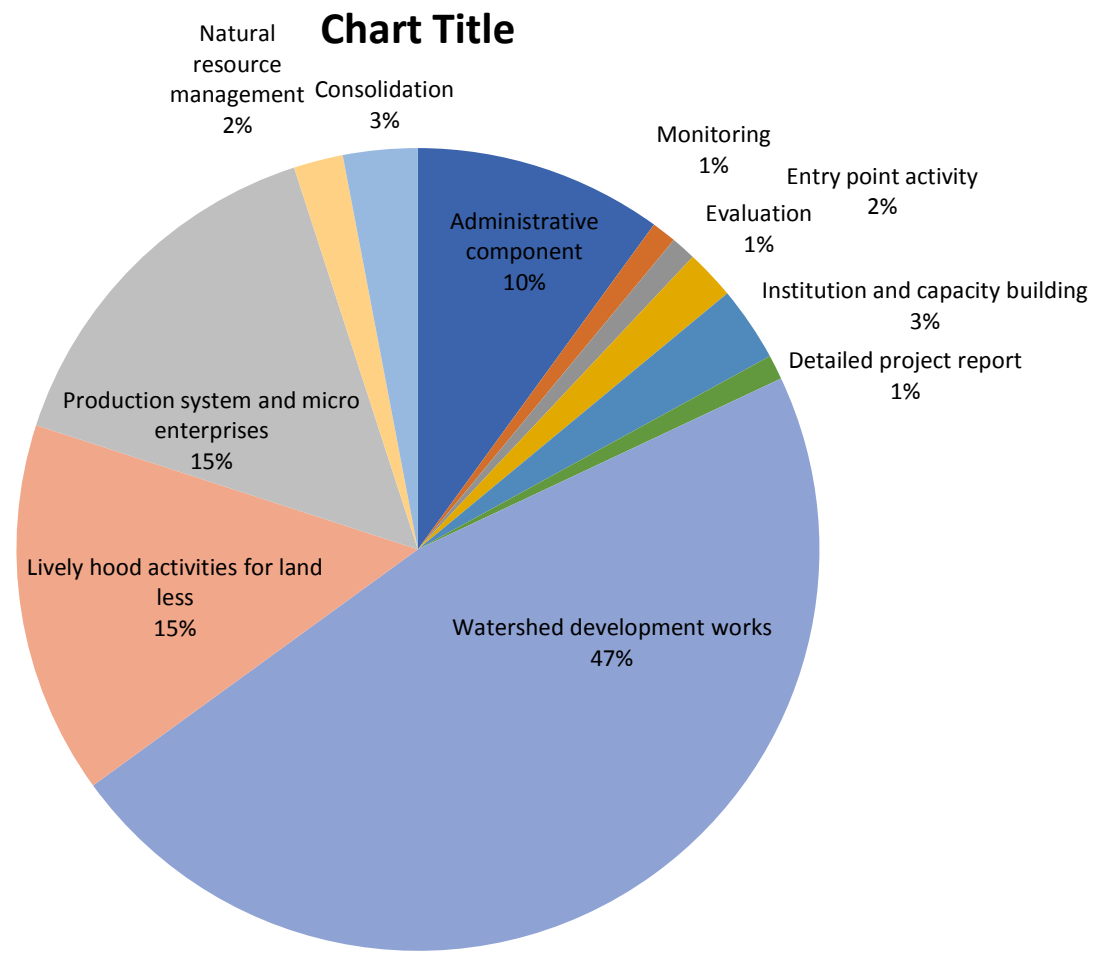

New Generation Watershed and Springshed Development Project (NGWSDP) of Hirebendigereand Shiggaonsub watershed project comprises of Nine micro watersheds and has total project area of 4633.68 ha with a total budget out lay of 1019.41 lakhs of which 479.12 lakhs are available for land treatment. After the net planning we have come out with the proper sectoral allocation of funds.

As discussed in the salient features based on the location specific activities agriculture sectors allotted with 280.44 lakhs for the bunding activities of 3649Ha and 29.70 lakhs for the 108 form ponds as private land treatment and 40 lakhs for drainage line treatment in all the categories of the land. Horticulture sector has allotted 66.00 lakhs for planting 264 Ha of land and Forest sector with the allocation of 60.34 lakhs for planting 397 Ha. Other than this the livestock sector has allotted with the 2.64 lakhs for the promotion of fodder development activities. Livelihood activities are allocated 152.91 lakhs. Production systems and micro enterprise are allotted 152.91 lakhs. For the remaing activities funds have been allocated as per the common guidelines.

The distribution of budget for the (NGWSDP) of Hirebendigereand Shiggaonsub watershed project for the various components therein is given below and is depicted in the

- **Table E.1: Budget for various components**

Budget component	%age of budget	Funds allocated(lakhs)
Administrative component	10	101.94
Monitoring	1	10.20
Evaluation	1	10.20
Preparatory phase including		
Entry point activity	2	20.38
Institution and capacity building	3	30.58
Detailed project report	1	10.20
Watershed work phase		
Watershed development works	47	479.12
Lively hood activities for land less	15	152.911
Production system and micro enterprises	15	152.911
Natural resource management	2	20.39
Consolidation	3	30.58
Total	100	1019.41

1.Executive summary (one page about the project)

1.Introduction and General description about project area

Area in ha.											
S. 3.Institution Building and Project Management

Table- 3.1 Details of Project Implementing Agency

PIA / Organization Name :	WDD team including ADA, AO, AAO and WC
Organization Type :	Government Department
Office Telephone Number:	08378-255631
Alternate Telephone Number :	8277931882 and 8277931873
Fax Number:	-
Official Email Id:	adashiggaon@rediffmail.com
Alternate Email Id	aoshiggaon73@gmail.com
Contact Officer Name:	shree. Suresh baburaodixith
Contact Officer Designation	Assistant directore of agriculture
Contact Officer Cell Number:	8277931882
State :	Karnataka
District	Haveri
Block :	Shiggaon
Selection Order Number :	32
Selection Authority	DLC
Selection Date of PIA:	31/02/2022

Office Address:

**Assistant Directorate of Agriculture ,Shiggaon At: APMC
Yard Shiggaon**

[Chapter - III] 3.8 Farmers Producer Organisation Group (FPO) Details

--	--

Village Name	FPO Name	Registration Date (DD/MM/YYYY)	Value Chain	No of Share members	Paidup capital/ Share collected	Turnover of Input Bussiness	Turn over of Out putBussiness
1	Basaveshwara Farmer Producer Company Ltd.	2018	Hortculture produce base	750	10.0 L	15.23 L	56.32 L
2	Shree Mahanandhi Green Farmer Producer Company Ltd.	2021	Hortculture produce base	682	7.0 L	7.25 L	20.35 L

[Chapter - III] 3.8 A Farmers Producer Organisation (FPO) members Details

Village Name :	FPO Name	Name of Member	Father/Husband Name	Gender	Landholding Category (Landless Farmer/ Large Farmer/Marginal Farmer/ Small Farmer)	Caste Category (SC/ST/Others/Minorities/OBC/BC-1/BC-2/Gen/EBC)	BPL (YES/NO)
KYALAKONDA AND KAPANUR A GP	Basaveshwara Farmer Producer Company Ltd.	Narayanarao Patil and others	-	Male	Small Farmer	OBC	NO
SHIGGAON	Shree Mahanandhi Green Farmer Producer Company Ltd.	Santhosh Katagi and others	-	Male	Small Farmer	OBC	NO

4. Net Planning and Project activities

It is for all reaches (upper, middle and lower) and also for Private, Common and drainage line areas

[Chapter - IV] 4.1 ,4.1A Baseline Data - Village wise Survey Numbers & Farmer wise Survey Numbers. Note: as mentioned in the chapter 4.4)

[Chapter - IV] 4.4 Details of Proposed Soil Moisture Conservation and Water Harvesting Activities

KABANURA-4D4A6Q3d

5. Project Planning and Action Plan

[Chapter - V] 5.1 Entry Point Activity

Amount Earnmarked for EPA(Lacs) : 20.39

Sl. No.	Village Name	Entry Point Activity Name	Estimated Cost (In Lacs)	Executing Agency	Latitude (Degree - Min-Sec)	Longitude (Degree - Min - Sec)	Months for Work Completion
1	Kabanura	CHSC and farm Mechinary Bank	4.25	ADA	-	-	Mar-31
2	Bannura	CHSC and farm Mechinary Bank	4.25	ADA	-	-	Mar-31
3	Hiremallura	CHSC and farm Mechinary Bank	4.25	ADA	-	-	Mar-31
4	kyalkonda	CHSC and farm Mechinary Bank	4.25	ADA	-	-	Mar-31
5	shiggaon	CHSC and farm Mechinary Bank	4.25	ADA	-	-	Mar-31
Total Estimate Cost			20.39	-	-	-	Mar-31

[Chapter - V] 5.2 Village wise Run-off Calculation

Block : Shiggaon

Sl.No.	Village Name	Total Area (Ha)	Particulars	Catchment Area (Ha.)	Run-Off Yield Per Ha (CuM)	Total Yield of Run-Off (CuM)	Average Annual Rainfall(mm)	Run off Method
1	HIREBENDIGERI AND SHIGGAON SUBWATERSHED	4633.68	Catchment Area Having 0 to 5 % Slope	5538.1	0	5640554.85 (5640.5 tcm)	873.25	Sheet runoff
			Sub Total	5538.1	0	5640554.85	873.25	

$$\text{RUNOFF(Q)(Cume)} = \frac{\text{Catchment Area (Ha)} * \text{Runoff rain(MM)} * 10000}{4 * 1000}$$

Abstract of Total Yield of Run-off

Catchment Area Having 0 to 5% Slope : Total Yield of Run-off (CuM)	5640554.85
Catchment Area Having 5 to 20% Slope : Total Yield of Run-Off (CuM)	0
Catchment Area Above 20% Slope : Total Yield Of Run-Off (CuM)	0
Grand Total	5640554.85

[Chapter - V] 5.3 Run-off Budgeting

Block : Shiggaon								
Village Name	Activity Type(Soil & Moisture Conservation Activity / Water Harvesting Activity)	Activity Name	Activity Unit	Quantity of Existing Activities (No/Ha)	Quantity of Proposed Activities (No/Ha)	Run-off To Be Stored By Existing Activities (TCM)	Run-off To Be Stored By Proposed Activities (TCM)	Total Amount of Run-off Stored (TCM)
HIREBENDIGERI AND SHIGGAON SUBWATERSHED	Soil & Moisture Conservation Activity	BUNDING	Ha	0	4633	0	2013.9651	2013.9651
	Water Harvesting Activity	FARM POND	No	43	252	79.55	466.2	545.75
	Water Harvesting Activity	CHECKDAM	No	22	25	518.75	518.75	1037.5
Total				65	4910	598.3	2998.9151	3597.2151

Abstract Of Run Off Budgeting

Total Available Run_Off (TCM)	5640.5	Run-Off Arrested From Existing Activities (TCM)	598.3
Run_Off Arrested From Proposed Activities (TCM)	2998.9151	Balance RunjDff (TCM)	5042.2
Balance Run-Off (%)	2641.5849	Run-Off Wasted Out (%)	36.23

Bunding storage capacity=0.4347 tcm/ha

Pond storage capacity= 1.95 tcm/ha

Chekdam storage capacity=20.75 tcm/ha

8	Hiremallura	-	41	3	38	41
9	Chikkamallura	-	40	4	36	40
Project Grand Total			372	37	335	372

Nature of Right :

F --->for right to fishing [culture,harvest and sale]

Fw -->for right to collect firewood for domestic purposes

G --->for right to grazing for cattle

MFP ->for right to collect and sell minor forest produces

P --->for right to passage across the CPR

Rd -->for right to construct a road for access to individual property

S/M ->for right to collect and sell Sand and Minerals

So -->for right to collect soil for nursery and plantation activities and construction

T--->for right to collect timber for construction of house

Wd -->for right to collect/use water for drinking

Wi -->for right to use water for irrigation

[Chapter - VIII] 8.2 Details of Activities in the CPRs of the Project Area

Block : Shiggaon
