

Government of Karnataka  
Department of Agriculture Mysuru  
District

**Watershed Development Component of Pradhan Mantri Krishi  
Sinchayee Yojana- WDC-PMKSY 2.0**

**Detailed Project Report (DPR)**

**Project Name : Mysuru - WDC-02/2021-22**

**Taluk: Periyapatna**

**District: Mysuru**

## Details of Project Implementing Agency

PIA / Organization Name :	Assistant Director of Agriculture, Periyapatna
Organization Type :	Government Department
Office Telephone Number:	08223 - 274205
Alternate Telephone Number :	08223 - 274205
Fax Number:	-
Official Email Id:	<a href="mailto:adappatna@rediffmail.com">adappatna@rediffmail.com</a>
Alternate Email Id	<a href="mailto:adappatna@rediffmail.com">adappatna@rediffmail.com</a>
Contact Officer Name:	Prasad Y
Contact Officer Designation	Assistant Director of Agriculture
Contact Officer Cell Number:	8277933185
State :	Karnataka
District	Mysuru
Block :	Periyapatna
Selection Order Number :	ಸಂ: ಜಅಇ/ಉಕೈನಿ/ಕೈಅ2/NGWSDP-PPPR/47/2021-22
Selection Authority	Watershed Development Department, Karnataka
Selection Date of PIA:	18-01-2022
Office Address:	Office of Assistant Director of Agriculture, PeriyapatnaTaluk, Mysuru District

# 1.Executive summary

## Introduction

Soil and water are two most important of the natural resources that were the basic prerequisites of civilizations from times immemorial. In our country the need for conserving water resources has been recognised since many decades. In this direction our country has adopted the Watershed approach has been implemented with the direct objective of arresting rainwater run-off and its harvesting and in-situ conservation of moisture and the soils. Concerted efforts have been made over the decades starting from the Watershed approach to conserve soil and water. Gradually the effort became more focused with the formation of the Dry Land Development Board (DLDB) which brought about the initial step to integrate the activities of several allied line Departments to comprehensively undertake Integrated Development of Watersheds. It was further modified into a nation-wide programme under National Watershed Development Programme for Rain-fed Areas (NWDPR) to harness the available natural resources to develop dry land areas into more productive areas. Another national programme of Integrated Waste Land Development Programme (IWLDP) was launched to tackle the waste and degraded lands into agriculturally productive areas.

## Background

Karnataka is one of the States in the Country implementing the Pradhan Mantri Krishi Sinchayi Yojana since 2009-10 PMKSY-WD is one of the flagship Programmes of the Government of India and is being implemented by the Department of Land Resources (DoLR) in all the States of the country. The programme envisages restoring the ecological balance by harnessing, conserving and developing degraded natural resources such as soil, vegetative cover and water through watershed management initiatives.

## OBJECTIVES OF PMKSY-WDC 2.0

- Increase the productive potential of degraded land through various watershed interventions
- Improved bio-mass through Agro-Horticulture, Agro-Forestry and Silvi-Pastoral systems
- Support the asset less, small land holders and other vulnerable sections through Income Generating Activities (IGA)
- Support the Livestock sector and Demonstrations in agriculture related sectors
- Improve production systems and Micro-enterprises
- Drought proofing rain-fed Agriculture
- Formation of vibrant and well informed community-based organisations resulting in the overall improvement in the social capital.
- Achieving sustainable agriculture leading to overall improvement in the quality of life of the farming community.

## Information of Mysore District

Mysore District of falls in the survey of India degree sheet numbers 48P,57D and 58A. The district is bounded by North latitudes 11° 45' to 12° 40' and East longitudes 75° 59' to 77° 05', covering an area of 6269 square kms. This district is one of the southern most Districts of the state and it is bordered by Kodagu District in the West, Cannanore District of Kerala state in the South West, Chamarajanagar District in the south and South East, Mandya District in the North and Hassan District in the North West.

The soils of the Districts are red sandy loams in major areas and in remaining areas pockets of black soils. The Agro climatic zones of Mysore Districts are Southern Dry Zone – VI comprises four talukas namely KR nagar, T Narispura Mysore, Nanjangud, & remaining three talukas namely Hunsur, HD Kote & Periyapatna lies in the Southern Transitional Zone – VII. More than 75% of arable land is under Rainfed. It has annual Rainfall of 650 to 850 mm, which is erratic and varying intensity.

## Watershed Area of Periyapatna Taluk

Periyapatna is one of the seven talukas of the District. Agriculture is the main occupation of people of the taluk. Ragi is the important food crop grown in the taluk, followed by zinger and Maiz other commercial crops like Tobacco, Cotton & Sugarcane. Soil and climate of the taluk ideally suited for growing Horticulture crops. Farmers are not coming forward to increase the area under Horticulture crops due to the absence of marketing & cold storage facilities. Establishment of cold storage facilities, marketing outlet and setting up of a few fruit processing units are likely to give a big boost to Horticulture sector in the taluk.

Periyapatna is situated in the state highway, one of the major towns in Mysore District which is about 10-15 kms from watershed area. This taluk consists of four Hoblies comprising of 196 villages & 34 Gram Panchayaths. Periyapatna Taluk is one of the Tribal dominant taluk of Mysuru District. More than 20,000 tribal families are living in and around forest fringes area called Hadies ( Tribals colony). Total area of the taluk is 812 sq.kms.

Objective of watershed development project – 2.0

To improve productive potential of rainfed / degraded land through. Integrated watershed Management.

Strengthen local community / Institution for promotion of Livelihoods and watershed sustainability.

Vision of WDC-PMKSY-2.0 Project.

Is to accelerate economic growth rate of agriculture in the less endowed rainfed areas of the country. This should be achieved by adopting harmony with ecological principles of development. The guiding principle shall be a better economy, ecology and equity in the rainfed regions of the country. Watershed development plan shall be guided by the need to achieve higher income for farmer community ownership, management and ecologically sustainable action plan.

Securing production and Farmers income against climate variability and its risks of drought spells through diversification of crops systems and animals husbandry and varied livelihood portfolios. Efficient harvesting and retention of rain water in soil profile.

Recognizing the sake of non land holding project members and promoting alternative livelihood opportunities.

Building an eco-system of enterprises for facilitating efficient scales of operation, access to credit and market linkages, Knowledge sharing resources, convergence led by vibrant member managed farmers. Institution.

Greater access to income generating opportunities facilitating co-option of members of these categories in various community institutions i.e FPO user groups etc.

Expected end result:

Increase in the total agricultural production of the project area substantively as a result of higher productivity enhanced cropping intensity.

Scientific use of land, water and other natural resources.

Increased livelihood opportunities for landless and marginal farmers. Those positive changes in production and job portfolio would reflect in higher average annual incomes for all families project area.

SHG'S playing an important role in micro-credit management.
