CHAPTER-1
INTRODUCTION & GENERAL DESCRIPTION OF PROJECT AREA

Executive summary

The Shimoga-WDC-02/2021-22 a of Shikaripura taluk . It comprises the geographical area of 5741.85 Ha and approved project area for treatment is 4990.50 ha of 09 villages & belonged to 4 Grama panchayats (GP) viz. Hittal,Kalmane.Arishinagere,& Saluru The project area is divided into 4 Ecs. The SWS named as Hittala SWS and divided into 12 micro w/s respectively. The soils are Red sandy clay loam Soil in uplands Land slope varies from 5 to 7%. Steep slopes are denuded for cultivation as such overland flow from heavy rains is lost along with fertile top soil. Paddy & Maize occupies 80% of rain fed area. MFs and SFs constitute , and hold of cropped area in the form of small holdings on steep slopes, landless families depend on seasonal farm labour for their livelihood. They find labour in their native till the end of kharif season and later move to nearby project areas at the time of summer paddy harvest. Detailed planning for the selected area of 4990.50 ha. under the project with an outlay of Rs 1397.34 lakhs is worked out for taking up Management cost, Monitoring and Evaluation, Entry Point Activity, Detailed Project Report, Institution Capacity Building , Natural Resource Management (land treatments under soil and water conservation, horticulture, forestry and animal husbandry) productionsystems,livelyhood,Natural Resource Management and Governence,Consolidation and Withdrawal phase.

• Salient Project activities:

- o Enhancing quality life among village community.
- o Ensuring institutional support for strengthening community organisation for data collection and preparation of action plans.
- o Inducing and strengthening both landless and poor landholders for income generation activities.
- o Reduction of soil and water erosion and fertility improvement for crop production.
- o Increasing household income of landholders through integrated farming and adoption of allied activities like, sheep/goat poultry/rearing and vermi compost production etc.
- o Improving vegetative cover for fodder, fuel wood, and timber.
- o Improving ground water recharge.
