

**Government of Karnataka
Department of Agriculture
Udupi District**

**Watershed Development Component of Pradhan Mantri Krishi Sinchayee
Yojana- WDC-PMKSY 2.0
Detailed Project Report (DPR)**

Project Name : Udupi-WDC-03/2021-22

Taluk : Kundapura

District : Udupi

Details of Project Implementing Agency

PIA / Organization Name :	ADA
Organization Type :	Government Department
Office Telephone Number:	08254-230271
Alternate Telephone Number :	--
Fax Number:	--
Official Email Id:	kundapurada@gmail.com
Alternate Email Id	--
Contact Officer Name:	Roopa J Mada
Contact Officer Designation	Assistant Director of Agriculture
Contact Officer Cell Number:	8277932503
State :	Karnataka
District	Udupi
Block :	Kundapura
Selection Order Number :	
Selection Authority	Watershed Development Department Karnataka
Selection Date of PIA:	
Office Address:	Assistant Director of Agriculture office, kotebagilu road kundapura

	Abstract of Activities Planned to be implemented under PMKSY-WDC 2.0, PMKSY-PDMC (MI) RKVY and MGNREGA (combined)	

1.Executive summary (one page about the project)

The coastal district Udipi of Karnataka State falls along the west coast of peninsular India and is separated from the rest of peninsula by towering high Western Ghats. Kundapura watershed situated in Kundapura Taluk and Udipi District with total area of 6313.91 ha, comprises of 19 micro watershed with the total treatable area of 3606.236 ha. It is 30 KM away from the taluk head quarters and 80 KM away from district head quarters Udipi. The area is spread over 6 villages namely Kodladi, Ajri, Kamalashile, Keradi, Bellala, Hosuru, fall under four Grama Panchayath namely Ajri, Keradi, Iduru kunjnadi. Bandy sub watershed consists of 8 Micro watersheds namely Martu-1 5A3C2L1a, Martu-2 5A3C2L1b, Harmannu 5A3C2L1c, Aragodu 5A3C2L2a, Yellaberu 5A3C2L2b, Beluvana 5A3C2L2c, Chitturu subwatershed consists of 1 microwatershed namely Nandrolli 5A3C2N2b Baregundi subwatershed consists of 2 microwatershed namely Baregundi2 5A3C2G2e, Kullamballi2 5A3C2G1d Salakoduhole subwatershed consists of 1 microwatershed namely Hemmakki4 5A3C2K2f

The area covered with two types i) red lateritic soil, is the most dominant soil type in the area ii) sandy loamy soils, are transported from origin and are found mostly along river banks and lower reaches of valleys. This soil type is very well suited for irrigational practices.

1.Introduction and General description about project area

The area is essentially an agricultural district with more than 70 % population depends on agriculture for their livelihood where as only 60 % of the available land is used for agriculture. Rest is either forest land or land unsuitable for agriculture. Agriculture is by and large confined to the traditional kharif cultivation depending on the monsoon. Paddy is the main crop raised by 75 % of the cultivated area in kharif season. The other crops are chillies, sweet potato and vegetables. In Rabi season, paddy, chillies, black gram and green gram, horse gram are raised. Pulses are raised during dry season. Plantation crops include coconut, cashew nut, banana, areca nut and pepper. Predominantly mono cropping is being practiced followed by mixed cropping in sum of the areas. As the area experiences, heavy rain falls most of the surface fertile soils gets washed away in toivers. The foothills are deforested, run off velocity is so fast that opportunity of infiltration is very less. Low organic contents further reduce moisture holding capacity of the soils. This also result in leaching of calcium and phosphorus from the soils, low organic content further reduce nutrient absorption of these soil leading to low productivity. The residents of the area are land less, small and marginal farmers, migration of residents to other states seeking employment is a common phenomenon. To avoid such migration and down trodden people are important factors where the project has to look into.

Availability of safe drinking water is seen in the area, is a boon to the whole district as well. But in a long run restore the safe level of ground water table to fulfill year round drinking water and to increase the productive irrigation area is one of the important parameter the project is planned for. There is a lot of scope to improve the biomass production through the horticulture and agro forestry programme and also to improve the livelihood of farmers by the supplementary income from these two sectors. With the co-ordination of department and the CBOs implementation of the income generating activities and production systems will also serve the employment.

Institutional Arrangements:

Different Committees under PMKSY -WDC 2.0 to look after the overall progress and policy matters (As per guidelines)

At Central Level :

Steering Committee (SC): Chaired by Secretary, DoLR at National level with members from the various ministries and institutions.

At State Level :

State Level Sanctioning Committee (SLSC) Chaired by Chief Secretary, GoK and members from the various departments. Commissioner Agriculture is Member secretary.

State Level Nodal Agency (SLNA) Chaired by Additional Chief Secretary and Development Commissioner, GoK and members from various departments. Commissioner Watershed Development. Dept is members secretary

At District Level :

Watershed Cell cum Data Center (WCDC): Chaired by deputy commissioner, CEO ZP is Co-chairman, Members from various line departments, KVKs, SAUs. Members Secretary/project manager is Joint Director Agriculture.

At Project Level :

Watershed Committee (WC): Chaired by Grama Panchayath President. Minimum 11 members.

5 SHGs & UGs members

3- FPO members

1- Grama Panchayath Member

1- WDT Member

1- Secretary cum treasurer

Out of these 11 members, atleast 2 representative each from women and SC/ST

6	Hosuru	CPR	21/1/2022	ECO_Fin_Pro_A	1	3	8
Project Grand Total							

Nature of Right :

F --->for right to fishing [culture,harvest and sale]

Fw -->for right to collect firewood for domestic purposes

G --->for right to grazing for cattle

MFP ->for right to collect and sell minor forest produces

P --->for right to passage across the CPR

Rd -->for right to construct a road for access to individual property

S/M ->for right to collect and sell Sand and Minerals

So -->for right to collect soil for nursery and plantation activities and construction

T--->for right to collect timber for construction of house

Wd -->for right to collect/use water for drinking

Wi -->for right to use water for irrigation
