

**Government of Karnataka
Department of Agriculture
Uttara Kannada District**

**Watershed Development Component of Pradhan Mantri Krishi
Detailed Project Report (DPR)**

Project Name : Uttara Kannada -WDC-01/2021-22)

Taluk : Kumta

District : Uttara Kannada

Details of Project Implementing Agency

PIA / Organization Name :	Smt. Rashmi G. Shahapurmath
Organization Type :	Government Department
Office Telephone Number:	08386-222121
Alternate Telephone Number :	
Fax Number:	
Official Email Id:	adakumta@gmail.com
Alternate Email Id	
Contact Officer Name:	Assistant Directore Of Agriculture Kumta (U.K.)
Contact Officer Designation	A.D.A.
Contact Officer Cell Number:	8277933024
State :	Karnataka
District	Uttara Kannada
Block :	Kumta
Selection Order Number :	Uttara Kannada -WDC-01/2021-22
Selection Authority	Department
Selection Date of PIA:	12/28/2021
Office Address:	Taluk : Kumta Dist : Uttara kannada State: Karnataka 581341

Executive summary (one page about the project):

The coastal district Uttara kannada of Karnataka State falls along the west coast of peninsular India and is separated from the rest of peninsular by towering high Western Ghats. Gokarna sub watershed situated in Kumta Taluka with total area of 4591.18 ha, comprises of 6 micro watershed with the total treatable area of 3500 ha. It is 35 KM. away from the taluka head quarters and 50 KM. away from district head quarters Uttara kannada.

The area is spread over 8 villages namely Torke, Hitlamakki, Gonehalli, Hanehalli, Hoskeri, Kadime, Gokarna, Bidrageri The Villages fall under 3 Grama Panchayaths namely Torke, Hanehalli, Gokarna. Gokarna sub watershed consists of 6 Micro watersheds namely Mulekeri- 5B1A1V2a, Kadime-5B1A1V2b, Bijjur-5B1A1V2d, Tadari-5B1A1V2c, Danibail-5B1A1V2e, Nushikote-5B1A1V2b.

The area is covered with two types of Soils: i) Red lateritic soil, is the most dominant soil type in the area ii) Sandy loamy soils, are transported from origin and are found mostly along river banks and lower reaches of valleys. This soil type is very well suited for irrigational practices.

Introduction and General Description about Project Area:

The area is essentially an agricultural area with more than 70 % population depends on agriculture for their livelihood where as only 60 % of the available land is used for agriculture. Rest is either forest land or land unsuitable for agriculture. Agriculture is by and large confined to the traditional kharif cultivation depending on the monsoon. Paddy is the main crop raised by 75 % of the cultivated area in kharif season. The other crops are Chillies, Sweet potato and Vegetables. In Rabi season, Paddy, Chillies, Amaranthus, Radish, Brinjal, Tomato, Blackgram, Greengram and Ground nut are raised. Pulses are raised during Rabi/Summer season under residual moisture Plantation crops include coconut, cashew nut, banana, areca nut and pepper. Predominantly mono cropping is being practiced followed by mixed cropping in some of the areas.

As the area experiences, heavy rain falls most of the surface fertile soils gets washed away in rainy season. The foothills are deforested, run off velocity is so fast that opportunity of infiltration is very less. Low organic contents further reduce moisture holding capacity of the soils. This also result in leaching of calcium and phosphorus from the soils, low organic content further reduce nutrient absorption of these soil leading to low productivity. The residents of the area are land less, small and marginal formers, migration of residents to other states seeking employment is a common phenomenon. To avoid such migration and down trodden people are important factors where the project has to look into.

Availability of safe drinking water is seen in the area, is a boon to the whole district as well. But in a long run restore the safe level of ground water table to fulfil year around drinking water and to increase the productive irrigation area is one of the important parameter the project is planned for. There is a lot of scope to improve the biomass production through the horticulture and agro forestry programme and also to improve the livelihood of farmers by the supplementary income from these two sectors. With the co-ordination of department and the CBOs implementation of the income generating activities and production systems will also serve the employment.

Institutional Arrangements:

Different Committees under PMKSY -WDC 2.0 to look after the overall progress and policy matters (As per guidelines)

At Central Level :

Steering Committee (SC): Chaired by Secretary, DoLR at National level with members from the various ministries and institutions.

At State Level :

State Level Sanctioning Committee (SLSC) Chaired by Chief Secretary, GoK and members from the various departments.

Watershed Cell cum Data Center (WCDC): Chaired by deputy commissioner, CEO ZP is Co-chairman, Members from various line departments, KVKs, SAUs. Members Secretary/project manager is Joint Director Agriculture.

At Project Level :

Watershed Committee (WC): Chaired by Grama Panchayath President. Minimum 11 members.

5 SHGs & UGs members

3- FPO members

1- Grama Panchayath Member

1-WDT Member

1- Secretary cum treasurer.

Out of these 11 members, at least 2 representative each from women and SC/ST.

1.Introduction and General description about project area (ha)

S. No.	Proposed Microwatershed code (8 digit code)	Name of the GPs covered	Name of the Villages under each GP	Geographical Area of the village	Total Reserved forest area	Project area (7=5-6)	Total untreatable area (area under assured irrigation, & uncultivable waste land and habitations)	Total treatable wasteland area (ha.) 8	Gokarna	CPR	21.01.2022	ECO_Fin_Pro_AD	25	6	43	74
Project Grand Total					52	10	93	155

Nature of Right :

F --->for right to fishing [culture,harvest and sale]

Fw -->for right to collect firewood for domestic purposes

G --->for right to grazing for cattle

MFP ->for right to collect and sell minor forest produces

P --->for right to passage across the CPR

Rd -->for right to construct a road for access to individual property

S/M ->for right to collect and sell Sand and Minerals

So -->for right to collect soil for nursery and plantation activities and construction

T--->for right to collect timber for construction of house

Wd -->for right to collect/use water for drinking

Wi -->for right to use water for irrigation
