Sub: Letter of Complaint against Dr. Sathish Ayyappa, Department of Soil science, GKVK (Sujala Water shed REWARD Project),bangalore

Respected Sir/Madam,

We are in the field of distributor of Scientific Laboratory equipment since 2001 onward, We are a Bangalore based company supplied in Pharma Industry, Food Industry, CSIR, IIT, NIT, ICAR, UAS Dharwad & Raichur, GKVK Bangalore and have a good reputation. We are regular supplier of Scientific Laboratory equipment, Reagent Kits Under GKVK colleges & all over college and research institutes in Karnataka.

With refers to the above subject Dr. A.Sathish working has a professor in Department of soil science & Agriculture chemistry,GKVK (Sujala Water shed Project),Bangalore. He is the main silent technical committee member of Purchase Laboratory equipment for the Sujala Water shed Project REWARD). We also supplied a few of the material in GKVK. Dr. A. Sathish also provided Order for some material to us with some understanding.

More than twenty years we have participated in Karnataka tender but last few years onwards we have participated in the tender for our relevant Equipments at GKVK (Sujala Water shed Project). But for our equipment whenever we quoted he is disqualifying us. Last March also I had a communicated with him personally regarding this purchase. He demanded some high percentage of commission from us for qualifying in the participating tender. I also agreed to pay for upcoming tender.

Recently a tender floated under Sujala Water shed Project under Watershed Development Department, one tender had been floated for equipment for all water shed project sectors. This is some huge quantity tender I spoke with him regarding this tender. He told if you need this order you provide 20 % commission!. I was not able to provide sir as a distributors my capacity to provide 15%.But he does not agree & says kindly don't participate in the tender. Already I committed to another company he said.

I met some person under Sujala Water shed Project - purchase department. Last few year Most of the equipments, material, Furnishing Items purchased by silent technical committee member Dr. A.Sathish from particular vendors with best commission. Than what is a use of tender? We spend money for EMD, Processing fees, Security deposit, and a lot much of burden is there for each tender. We also have a mouth & stomach. But he directly disqualifying in the tender without any valuable points.

REWARD - 2022

For a kind information we here with explain the project Details Watershed Development Department is implementing Karnataka Watershed Development Project-II (Sujala-III) from 2013-14 with the World Bank assistance with the allocation of Rs.412.59 crores (revised). The project is being implemented in the selected watersheds located in 11 project districts viz., Bidar, Kalaburagi, Yadgir, Raichur, Koppal, Vijayapura, Gadag, Davangere, Tumkur and Chamarajanagara and than Karnataka state approves Rs. 600-cr watershed project 'REWARD' with World Bank assistance. As per the above Government providing a budget for developing our country but this people utilizing the fund for their own pocket money. Because of the under table work how our country will develop?

Kindly take a necessary action against him. If same thing happen we have a Scientific Lab equipment association in Karnataka through our association we take legal action. But we believe you "compulsory you rectify this problem"

Upcoming tender we need transparency (Sujala Water shed Project). So that Government get a competitive price with Good quality product. So kindly follow up the recent tender. Here typed all the words are true kindly believing me. If you are need a proof kindly track the phone calls of last three months At the same time he technically qualified & proceed the Order to recommended their own personals.

Yours faithfully
